

HAND HELD LASER

Class-3B

The *HAWKX-EYE*[®] Handheld Laser Bird Deterrent Light is based on Laser beam Technology which repels birds during lighting conditions of 10.000 Lux or less, which can be compared with a cloudy weather. Birds perceive the laser beams as an approaching physical danger and fly away in search for safer grounds. Unlike the conventional methods of bird deterrence, there will be no habituation effect. After consistent use, birds will perceive the area as unsafe and will not return. The *HAWKX EYE*[®] Handheld Laser Bird Deterrent Light is most effective during sunrise and sunset and in overcast, rainy or foggy weather conditions.

TECHNICAL SPECIFICATIONS
